Auto racing is a sport of metal and rubber, but it's also a game of numbers. From lap times around a track to the speed of each car at qualifying, NASCAR's unique brand of racing is an easy place to see math in action. Readers learn that different types of tracks are built in different lengths, and how differences in road courses and superspeedways impact speeds. All of these factors are ways to turn those numbers into innovative tools to learn about mathematics in new and exciting ways."

"Moonshiners put more time, energy, thought, and love into their cars than any racer ever will. Lose on the track and you go home. Lose with a load of whiskey and you go to jail." --Junior Johnson, NASCAR legend and one-time whiskey runner Today's NASCAR is a family sport with 75 million loyal fans, which is growing bigger and more mainstream by the day. Part Disney, part Vegas, part Barnum & Bailey, NASCAR is also a multibillion-dollar business and a cultural phenomenon that transcends geography, class, and gender. But dark secrets lurk in NASCAR's past. Driving with the Devil uncovers for the first time the true story behind NASCAR's distant, moonshine-fueled origins and paints a rich portrait of the colorful men who created it. Long before the sport of stock-car racing even existed, young men in the rural, Depression-wracked South had figured out that cars and speed were tickets to a better life. With few options beyond the farm or factory, the best chance of escape was running moonshine. Bootlegging offered speed, adventure, and wads of cash-if the drivers survived. Driving with the Devil is the story of bootleggers whose empires grew during Prohibition and continued to thrive well after Repeal, and of drivers who thundered down dusty back roads with moonshine deliveries, deftly outrunning federal agents. The car of choice was the Ford V-8, the hottest car of the 1930s, and ace mechanics tinkered with them until they could fly across mountain roads at 100 miles an hour. After fighting in World War II, moonshiners transferred their skills to the rough, red-dirt racetracks of Dixie, and a national sport was born. In this dynamic era (1930s and '40s), three men with a passion for Ford V-8s-convicted criminal Ray Parks, foul-mouthed mechanic Red Vogt, and crippled war veteran Red Byron, NASCAR's first champion-emerged as the first stock car "team." theirs is the violent, poignant story of how moonshine and fast cars merged to create a new sport for the South to call its own. Driving with the Devil is a fascinating look at the well-hidden historical connection between whiskey running and stock-car racing. NASCAR histories will tell you who led every lap of every race since the first official race in 1948. Driving with the Devil goes deeper to bring you the excitement, passion, crime, and death-defying feats of the wild, early days that NASCAR has carefully hidden from public view. In the tradition of Laura Hillenbrand's Seabiscuit, this tale not only reveals a bygone era of a beloved sport, but also the character of the country at a moment in time.

Love them or hate them, the tweets of President Donald J. Trump rule the Twitterverse. Until our last presidential campaign, television, particularly campaign ads, dominated the political landscape. But with the rise of Donald J. Trump came a new political tool: the internet. Trump used this to communicate instantly and very effectively with the American people. And it worked. Establishing his political positions by tweeting numerous times a day, Trump pulled a major upset by defeating Hillary Rodham Clinton to become the 45th president of the United States. Once in office, Trump did not abandon his penchant for using Twitter as his populist platform. Instead, he doubled down on it, making it his primary means of communicating with the American people. Knowing how effective a tweet can be, Trump once wrote, "Boom. I press it and within two seconds we have breaking news." With a massive Twitter following of 78 million by the spring of 2020, Trump's direct impact upon Americans cannot be dismissed, nor can the value of his tweets as an essential part of the historical record be denied. To put the enormous impact of his tweets into perspective, Trump won the White House with 63 million votes-a number significantly lower than his massive Twitter following. Now you can read the collected tweets of wisdom-or ridiculousness-from President Donald J. Trump, from his inauguration through February 2020 in this historically significant collection.

Ken Jennings's Trivia Almanac is the ingeniously organized book where, for a change, the all-time Jeopardy! champ gets to ask the questions-and where every day of the year will give you the chance to test your trivia mettle. For example-February 21: In 1912, on this day, Teddy Roosevelt coined the political phrase "hat in the ring," so Ken Jennings fires off a series of "ring" questions. What two NFL quarterbacks have four Super Bowl rings each?* What rings are divided by the Cassini Division?* Also on this date, in 1981, the "goth" music scene was born in London, so here's a quiz on black-clad icons like Darth Vader, Johnny Cash, and Zorro. Do you know the secret identities of Ivanhoe's Black Knight*** or Men in Black's Agent M****? In this ultimate book for trivia buffs and other assorted know-it-alls, the 365 entries feature "This Day in History" factoids, trivia quizzes, and questions categorized by Jennings as "Easy," "Hard," and "Yeah, Good Luck." Topics cover every subject under the sun, from paleontology to mixology, sports feats to Bach suites, medieval popes to daytime soaps. This addictive gathering of facts, oddities, devilishly clever quizzes, and other flights of fancy will make each day a fun and intriguing new challenge.
