Previously published as Ancient Science, Secret History contains 150 pages of new material. The Secret History of The World and How To Get Out Alive is the definitive book of the real answers where Truth is more fantastic than fiction. Laura Knight-Jadczyk, wife of internationally known theoretical physicist, Arkadiusz Jadczyk, an expert in hyperdimensional physics, draws on science and mysticism to pierce the veil of reality. With sparkling humour and wisdom, she picks up where Fulcanelli left off, sharing over

thirty years of research to reveal, for the first time, The Great Work and the esoteric Science of the Ancients in terms accessible to scholar and layperson alike. Conspiracies have existed since the time of Cain and Abel. Facts of history have been altered to support the illusion. The question today is whether a sufficient number of people will see through the deceptions, thus creating a counter-force for positive change - the gold of humanity - during the upcoming times of Macro-Cosmic Quantum Shift. Laura argues convincingly, based on the revelations of the deepest of esoteric secrets, that the present is a time of potential transition, an extraordinary opportunity for individual and collective renewal: a quantum shift of awareness and perception which could see the birth of true creativity in the fields of science, art and spirituality. The Secret History of the World allows us to redefine our interpretation of the universe, history, and culture and to thereby navigate a path through this darkness. In this way, Laura Knight-Jadczyk shows us how we may extend the possibilities for all our different futures in literal terms. With over 800 pages of fascinating reading, The Secret History of The World and How to Get Out Alive is rapidly being acknowledged as a classic with profound implications for the destiny of the human race. With painstakingly researched facts and figures, the author overturns long-held conventional ideas on religion, philosophy, Grail legends, science, and alchemy, presenting a cohesive narrative pointing to the existence of an ancient techno-spirituality of the Golden Age which included a mastery of space and time: the Holy Grail, the Philosopher's Stone, the True Process of Ascension. Laura provides the evidence for the advanced level of scientific and metaphysical wisdom possessed by the greatest of lost ancient civilizations - a culture so advanced that none of the trappings of civilization as we know it were needed, explaining why there is no 'evidence' of civilization as we know it left to testify to its existence. The author's consummate synthesis reveals the Message in a Bottle reserved for humanity, including the Cosmology and Mysticism of mankind Before the Fall when, as the ancient texts tell us, man walked and talked with the gods. Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind - or at least a portion of mankind - has the opportunity to regain his standing as The Child of the King in the Golden Age. If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world, then surely The Secret History of the World and How to Get Out Alive is it.

This book is based on the actual case of the East Area Rapist, later also known as the Original Night Stalker, a masked man who terrorized California communities for ten years; 1976 through 1986, and possibly to this day. Because I was not involved in the initial rape investigations, they are written from hundreds of reports, notes, memos, newspaper clippings, conversations and interviews with those who were involved. The crimes are factual. The crimes are real. While all characters and events have direct counterparts in the telling of the story, I have created some dialogue in the interest of readability. The cops in the initial rapes are not factual, their actions are. Their names and descriptions are completely fictitious. The names of the victims, witnesses and suspects are fictitious; the terror, the dialogue during the crimes, and the investigations are real. The cops involved in the cases after I was involved are real, their names and dialogue is factual, the investigations are real. The pain and terror may have diminished in the minds of the victims, I hope that the pain does not return. My intent is to tell the story without endangering the privacy or the dignity of the victims. They have suffered enough.

Being Sociological considers the lived experience of sociology, stressing the active nature of social life and highlighting the role that students can play in enacting social change. Fully reworked in this third edition, with five brand new chapter topics and a diverse roster of new contributors, this textbook presents a fresh take on society today. The book encourages readers to examine both enduring challenges and their potential solutions. Dynamic learning features help students unpack key ideas from sociological theory and apply them to today's problems to cultivate their own sociological imagination. An inspiring read, this textbook will empower students to engage with sociology outside the classroom and embed it in their everyday lives. With new contributors, fresh organisation and a vibrant student-centric focus, this third edition brings Being Sociological fully up to date and reaffirms its place as an invaluable introduction to sociology for students new to the field. New to this Edition: - All chapters completely rewritten to provide a fresh overview of sociology today - Coverage of five new chapter subjects : including social movements, urbanization, migration and sport and leisure, reflecting their centrality in modern life and in introductory sociology courses - A focus on the SHiP framework, moving away from social categories to consider instead society's structural composition, its historical patterns and power inequalities and their interplay in individual lives - A forward-looking, optimistic orientation, bolstered by new pedagogical features inviting students to consider pathways for change

In his first novel "96" Larry M. Brooks puts on display his unique ability to turn real life experiences into parables that drive home his no nonsense philosophical view points. "96" takes you on a breath taking journey through Larry M. Brooks' early adolescence years hustling in the back woods of Liberty, Texas to his adventures of adapting to middle class life as a military brat in Hinesville, Georgia.
