A Publishers Weekly Most Anticipated Book of Spring 2021 From a Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children, husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew

Chapter 10 Review Answer Key

Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi. At the end of the period the United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota. Absorbing and chilling, *American Republics* illuminates the continuities between our own social and political divisions and the events of this formative period.

"The narrative offers informed, exacting characterizations of the uncertain political alliances, strained interactions and ideological growing pains that elites of the post-revolutionary decades put the country

through.”—Andrew Burstein, *The Washington Post* A vivid account of leadership focusing on the first four Virginia presidents—George Washington, Thomas Jefferson, James Madison, and James Monroe—from the bestselling historian and author of *James Madison*. From a small expanse of land on the North American continent came four of the nation's first five presidents—a geographic dynasty whose members led a revolution, created a nation, and ultimately changed the world. George Washington, Thomas Jefferson, James Madison, and James Monroe were born, grew to manhood, and made their homes within a sixty-mile circle east of the Blue Ridge Mountains. Friends and rivals, they led in securing independence, hammering out the United States Constitution, and building a working republic. Acting together, they doubled the territory of the United States. From their disputes came American political parties and the weaponizing of newspapers, the media of the day. In this elegantly conceived and insightful new book from bestselling author Lynne Cheney, the four Virginians are not marble icons but vital figures deeply intent on building a nation where citizens could be free. Focusing on the intersecting roles these men played as warriors, intellectuals, and statesmen, Cheney takes us back to an exhilarating time when the Enlightenment opened new vistas for humankind. But even as the Virginians advanced liberty, equality, and human possibility, they held people in

Chapter 10 Review Answer Key

slavery and were slaveholders when they died. Lives built on slavery were incompatible with a free and just society; their actions contradicted the very ideals they espoused. They managed nonetheless to pass down those ideals, and they became powerful weapons for ending slavery. They inspired Abraham Lincoln and Frederick Douglass and today undergird the freest nation on earth. Taking full measure of strengths and failures in the personal as well as the political lives of the men at the center of this book, Cheney offers a concise and original exploration of how the United States came to be.

From the acclaimed historian and New Yorker writer comes this urgent manifesto on the dilemma of nationalism and the erosion of liberalism in the twenty-first century. At a time of much despair over the future of liberal democracy, Jill Lepore makes a stirring case for the nation in *This America*, a follow-up to her much-celebrated history of the United States, *These Truths*. With dangerous forms of nationalism on the rise, Lepore, a Harvard historian and New Yorker staff writer, repudiates nationalism here by explaining its long history—and the history of the idea of the nation itself—while calling for a “new Americanism”: a generous patriotism that requires an honest reckoning with America’s past. Lepore begins her argument with a primer on the origins of nations, explaining how liberalism, the

Chapter 10 Review Answer Key

nation-state, and liberal nationalism, developed together. Illiberal nationalism, however, emerged in the United States after the Civil War—resulting in the failure of Reconstruction, the rise of Jim Crow, and the restriction of immigration. Much of American history, Lepore argues, has been a battle between these two forms of nationalism, liberal and illiberal, all the way down to the nation's latest, bitter struggles over immigration. Defending liberalism, as *This America* demonstrates, requires making the case for the nation. But American historians largely abandoned that defense in the 1960s when they stopped writing national history. By the 1980s they'd stopped studying the nation-state altogether and embraced globalism instead. "When serious historians abandon the study of the nation," Lepore tellingly writes, "nationalism doesn't die. Instead, it eats liberalism." But liberalism is still in there, Lepore affirms, and *This America* is an attempt to pull it out. "In a world made up of nations, there is no more powerful way to fight the forces of prejudice, intolerance, and injustice than by a dedication to equality, citizenship, and equal rights, as guaranteed by a nation of laws." A manifesto for a better nation, and a call for a "new Americanism," *This America* reclaims the nation's future by reclaiming its past.

Chapter 10 Review Answer Key

Globalist Top Books of the Year • Winner of the Maine Literary Award for Non-fiction • Particularly relevant in understanding who voted for who in this presidential election year, this is an endlessly fascinating look at American regionalism and the eleven “nations” that continue to shape North America According to award-winning journalist and historian Colin Woodard, North America is made up of eleven distinct nations, each with its own unique historical roots. In *American Nations* he takes readers on a journey through the history of our fractured continent, offering a revolutionary and revelatory take on American identity, and how the conflicts between them have shaped our past and continue to mold our future. From the Deep South to the Far West, to Yankeedom to El Norte, Woodard (author of *American Character: A History of the Epic Struggle Between Individual Liberty and the Common Good*) reveals how each region continues to uphold its distinguishing ideals and identities today, with results that can be seen in the composition of the U.S. Congress or on the county-by-county election maps of any hotly contested election in our history.

Published by OpenStax College, *U.S. History* covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. *U.S. History* is designed to

Chapter 10 Review Answer Key

meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Why are Americans so angry with each other? The United States is caught in a partisan hyperconflict that divides politicians, communities—and even families. Politicians from the president to state and local office-holders play to strongly-held beliefs and sometimes even pour fuel on the resulting inferno. This polarization has become so intense that many people no longer trust anyone from a differing perspective. Drawing on his personal story of growing up as a fundamentalist Christian on a dairy farm in rural Ohio, then as an academic in the heart of the liberal East Coast establishment, Darrell West analyzes the economic, cultural, and political aspects of polarization. He takes advantage of his experiences inside both conservative and liberal camps to explain the views of each side and offer insights into why each is angry with the other. West argues that societal tensions

Chapter 10 Review Answer Key

have metastasized into a dangerous tribalism that seriously threatens U.S. democracy. Unless people can bridge these divisions and forge a new path forward, it will be impossible to work together, maintain a functioning democracy, and solve the country's pressing policy problems.

The most powerful American of his time, Andrew Jackson saw himself as the people's "great avenger." Yet his ideas also limited the people's sovereignty, imposing one kind of law to inflict one sort of "justice." Drawing from new evidence about Jackson and the southern frontiers, *Avenging the People* boldly reinterprets the man and his age.

#1 NEW YORK TIMES BESTSELLER • Pulitzer Prize-winning author Jon Meacham helps us understand the present moment in American politics and life by looking back at critical times in our history when hope overcame division and fear. ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR • The Christian Science Monitor • Southern Living Our current climate of partisan fury is not new, and in *The Soul of America* Meacham shows us how what Abraham Lincoln called the "better angels of our nature" have repeatedly won the day. Painting surprising portraits of Lincoln and other presidents, including Ulysses S. Grant, Theodore Roosevelt, Woodrow Wilson, Franklin D. Roosevelt, Harry S. Truman, Dwight

Chapter 10 Review Answer Key

Eisenhower, and Lyndon B. Johnson, and illuminating the courage of such influential citizen activists as Martin Luther King, Jr., early suffragettes Alice Paul and Carrie Chapman Catt, civil rights pioneers Rosa Parks and John Lewis, First Lady Eleanor Roosevelt, and Army-McCarthy hearings lawyer Joseph N. Welch, Meacham brings vividly to life turning points in American history. He writes about the Civil War, Reconstruction, and the birth of the Lost Cause; the backlash against immigrants in the First World War and the resurgence of the Ku Klux Klan in the 1920s; the fight for women's rights; the demagoguery of Huey Long and Father Coughlin and the isolationist work of America First in the years before World War II; the anti-Communist witch-hunts led by Senator Joseph McCarthy; and Lyndon Johnson's crusade against Jim Crow. Each of these dramatic hours in our national life have been shaped by the contest to lead the country to look forward rather than back, to assert hope over fear—a struggle that continues even now. While the American story has not always—or even often—been heroic, we have been sustained by a belief in progress even in the gloomiest of times. In this inspiring book, Meacham reassures us, "The good news is that we have come through such darkness before"—as, time and again, Lincoln's better angels have found a way to prevail. Praise for *The Soul of America* "Brilliant, fascinating, timely . . . With compelling

Chapter 10 Review Answer Key

narratives of past eras of strife and disenchantment, Meacham offers wisdom for our own time.”—Walter Isaacson “Gripping and inspiring, *The Soul of America* is Jon Meacham’s declaration of his faith in America.”—Newsday “Meacham gives readers a long-term perspective on American history and a reason to believe the soul of America is ultimately one of kindness and caring, not rancor and paranoia.”—USA Today

This book presents an original historical-legal analysis of the adoption of the Constitution and the Bill of Rights. Drawing upon James Madison’s own minutes of the 1787 Convention, it focuses on Madison’s crucial role in shaping a bill of rights that would both reserve the states’ powers and confirm the implied powers doctrine for the federal government. This comprehensive work is indispensable for understanding the origins of the federal system of government and its impact on later developments in the United States.

In this Second Edition of this radical social history of America from Columbus to the present, Howard Zinn includes substantial coverage of the Carter, Reagan and Bush years and an Afterword on the Clinton presidency. Its commitment and vigorous style mean it will be compelling reading for under-graduate and post-graduate students and scholars in American social history and American studies,
