The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

A less-expensive grayscale paperback version is available. Search for ISBN 9781680922936. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Accounting: Information for Business Decisions offers an integrated approach to teaching managerial and financial accounting course topics for the Introductory or Principles of Accounting course. This new text, written by an experienced author team, is designed to help students understand how to use both managerial and financial accounting information to make decisions. Class-tested for three years across the United States, its student-friendly approach has already earned it rave reviews. The text provides an introduction to business in Chapter 1 and is the only introductory accounting book to have an entire chapter (Chapter 2) devoted to creative and critical thinking. A non-technical approach makes learning accounting accessible for majors and non-majors, focuses students on using accounting information for decision making, and conforms with AECC guidelines for teaching accounting. A full-chapter length appendix on the accounting cycle (debits/credits) allows instructors to implement this portion of the course anywhere they desire.

Useful for all Commerce competitive examination where Objective Questions are asked like College Lecturer, Assistant Professor, UGC NET JRF Commerce, SET Commerce, Phd Entrance, Accounts Officers, PGT Commerce, M.Com Entrance etc.

Students can measure their progress through a wealth of self-test material (with solutions) and a summary of chapter key points.
