The Baxi Luna HT is a modulating, condensing wall-hung gas boiler with an efficiency of up to 92.5% AFUE. One of the five models of the Luna HT, the HT 380, is a combination central heating and on-demand domestic hot water boiler. The nickel-chrome, stainless steel design of the premix burner and primary heat exchanger provide resistance to corrosion and low heat inertia.

Baxi Madness Thank you all for the posts. I did an HT 380 install with an On-Site Tech Rep from a Distributor. It involved a Laptop, and those crazy alien gauges that got stuffed everywhere. It has worked well for a while, but may need revisiting. May need to find locally-stocked parts soon. Current Issue :

LAARS HT 330 Installation Manual. Has no mention of the additional 24 Volt thermostat connection with solenoid; On page 33 it describes a setting that simply does not exist. There is only a snow icon or a sun icon. It even says the same thing in the Baxi Luna HT 380 instructions from the Baxi boilers website!: Again, this setting does not exist.

The best part is that these Baxi boilers can work in conjunction with any hydronic air handler, wall or baseboard radiator and in floor radiant system. The Baxi HT380 boiler is compact it measures in at 17-3/4" in width, 13-1/2" in diameter and only 30" in height. If you don't have a lot of space the Baxi HT380 can be installed on the wall.
