Do not use boiling water, only hot tap water. Carpets and rugs can hold onto stains. You can remove these stains debris with the Bissell Dirtlifter PowerBrush. Before operating the machine, move furniture out of the way and plan to give your carpet two to three hours to dry before walking on it. The machine requires water; hot water is efficient at loosening stains.

However, the association between bodybuilding, drugs and risk has contributed to a negative image of an activity which many people find puzzling. Using data obtained from participant observation and interviews, this book explores bodybuilding subculture from the perspective of the bodybuilder. It looks at: * How bodybuilders try to maintain competent social identities * How they manage the risks of using steroids and other physique-enhancing drugs * How they understand the alleged steroid-violence link * How they 'see' the muscular body. Through systematic exploration it becomes apparent

Different and valuable insights into what sustains and legitimizes potentially dangerous drug-taking activities are provided by this detailed picture of a huge underground subculture.
