This is a very cool estate sale barn find. It is a 1949 BSA Bantam D1 motorcycle. This motorcycle was recently purchased from an estate sale. The owner implied that his father had bought this bike in 1950 from his grandfather who purchased it new the previous year. As you can see in the pics, it is in need of a total restoration. It wheels ...

The bantam requires that  
amount of oil to remain  
lubricated, it is an  
agricultural engine compared  
to modern 2 strokes where  
lubrication is so well  
controlled. The debates on  
mixtures are interesting but  
rather unnecessary on an  
engine with such a limited  
power output, Ok for the  
bantam racer/trials lads I  
suppose.

Bantam D7 D1. The D1 (the  
original model) 125cc was  
available initially only  
with a rigid rear  
suspension, although within  
three years the range was  
enhanced to include an  
optional plunger rear  
suspension. The front  
suspension of all D1's  
possessed no damping and  
resulted in a bouncy ride  
quality.
