An essential masterwork from Chinese literary giant Lu Yao--winner of the Mao Dun Literature Prize--available for the first time in English. Lu Yao published only two novels before his

"In this book, Evgenia Cherkasova brings the philosopher Kant and the novelist Dostoevsky together in conversations that probe why duty is

Get Free Cen Tech P35017

central to our moral life. She shows that just as Dostoevsky is indebted to Kant, so Kant would profit from the deeply philosophical narratives of Dostoevsky, which engage the problem of evil and the claims of human community. She not only produces a novel reading of

Dostoevsky, but also guides us to later, often neglected Kantian texts. This study is written with scholarly care, penetrating analysis, elegance of style, and moral urgency: Cherkasova writes with both mind and heart."

Listening to what she terms 'unruly pirate voices' in early modern English literature, in this study Claire Jowitt offers an original and compelling analysis of the cultural meanings of 'piracy'. By examining the often

marginal figure of the pirate (and also the sometimes hard-to-distinguish privateer) Jowitt shows how flexibly these figures served to comment on English nationalism, international relations, and contemporary politics. She considers the ways in which piracy can, sometimes in surprising

cultural impact of Renaissance piracy, *The Culture of Piracy, 1580-1630* underlines how the figure of the Renaissance pirate was not only sensational, but also culturally significant. Despite its transgressive nature, piracy also comes to be seen as one of the key mechanisms which

They didn't know what to do. Would you? Let's say you just found out you'd survived a massive chemical attack. How it happened and

Get Free Cen Tech P35017

how many others lived through it...you don't yet know. You don't know the when (exactly), the who, or the why. You just...don't...know. You have so many questions, but there's no doubting what you've seen. Surreal as the aftermath may be, this isn't a hoax. This is for real. You scramble

back to where you were—where you were safe—and hear a message on the radio confirming this is widespread—across all of North America. There are probably thousands of other survivors out there—for now--people who got lucky like the nine of you. But it's not over.

Not even close. That message tells you an enemy army is on the way to finish the job. It's only a matter of time. So what do you do? You're only 20. The Marines have prepared you for a lot...but this? Your dad, your girlfriend, and your little sister...they're not ready. How could

they be? None of you are. But you only have two choices: Stay—and await the inevitable—or run. Supposedly there's one safe haven left—ONE—and it's clear across the country (and an ocean) in Hawaii. But the enemy knows that too. They'll be lying in wait as you run right at them.

That's your best chance? It can't be. There has to be a better way. But you know there isn't. You have to leave behind a mother, your friends, neighbors and families—an entire lifetime. You have to leave behind everything. You have to face off with fear, with the massive devastation,
