Common Chess Tactics . Tactics are short-term calculated sequences of moves resulting in checkmate, the win of material, or some other gain. An understanding of tactics is crucial to playing good chess. Most games, especially at the club level, are decided by tactical mistakes. Learning the basic tactics in chess will help you in two ways. It will let you take advantage of your opponent's ...

Essential Chess Strategy and Tactics - The Spruce Crafts

In chess, a tactic refers to a sequence of moves that limits the opponent's options and may result in tangible gain. Tactics are usually contrasted with strategy, in which advantages take longer to be realized, and the opponent is less constrained in responding.. The fundamental

Everybody who plays chess knows how important tactics are, and how fast a tactical blow can end a chess game. There are a lot of tactics books on the market, but in my opinion no one quit like this. Strictly puzzle books like "Manual of chess combinations volume 2" for example are good books. The problem however are how this puzzle solving transfers over to a real chessgame. Having a puzzle in ...
