A Complete Guide on the Best Baby Monitor to Get 2020

At a very young age, children are like sponges, absorbing everything they see and do, learning at an unprecedented rate. This ability to learn so quickly is what allows them to start speaking on an average between 10 months and 2 years old, and to pick up many grown-up mannerisms in infancy. American Sign Language (ASL) is the most recent discovery for infants, and is a very popular way of ...

Parenting an Adopted Child: A Complete Guide

Log your baby's sleep time for a week and make note of nap times and length as well as how many times she's waking up overnight for feedings. Having a sleep log will help you stay on track with naps and nighttime bedtimes so that baby can maintain a sleep schedule.

The Complete Guide to Sleep Training Babies

Mirrors, moving objects and sounds all encourage a baby to lift his/her head and will in turn strengthen the neck muscles. Newborn babies have not developed fine motor skills at this early age, but they do have reflexes and can hold and grip onto fingers when they are placed in their palm. With use, these muscles will become stronger before the reflex regresses at about 4 months

Developmental Milestones | 0 - 6 Months : Good Play Guide

Covering everything from birth to infancy and toddlerhood, to first concerns, growth and development, and the most common injuries and concerns through adolescence, Taking Care of Your Child is easy to use, even in a crisis: you can simply look up a symptom to find a complete explanation of probable causes, how to treat the problem at home, and when to see a doctor.
