Make learning medical terminology faster and more fun with Quick & Easy Medical Terminology, 6th Edition! Featuring CDs with interactive games and audio pronunciations, this book helps you begin reading, writing, and speaking medical terms in the shortest time possible. Small chunks of information are always followed immediately by exercises, so students will be learning "every minute!" The many puzzles, activities, and games make it easier to understand and remember terminology. Written in a clear, conversational style by Peggy C. Leonard, MT, MEd, this book gives you the tools to communicate effectively in the health care environment. A companion CD reinforces learning with fun, interactive exercises, including medical reports and Hear It/Spell It exercises. Two audio CDs let you listen to correct pronunciations of medical terms and encourage you to pronounce each term aloud. A flexible, body systems organization lets you go through the material in any order after completing the orientation chapters, making it easy to coordinate your study with other courses such as anatomy and physiology. The programmed learning approach presents content in small blocks called 'frames' that allow you to learn the content and get immediate feedback on your progress before proceeding. Diverse learning styles are accommodated by a wide variety of exercises -- labeling diagrams, writing terms, choosing pronunciation accents, recognizing misspelled terms, matching word parts, interpreting terms within health reports, and categorizing terms. Unique! A conversational writing style makes the book more readable and enjoyable. Unique! Thorough explanations of terms help you understand and remember the material by presenting terminology in a medical context. A consistent format to body systems chapters uses categories to simplify the learning of terms, with each chapter including function; structure; diseases, disorders, and diagnostic terms; and surgical and therapeutic interventions. Healthcare reports and case studies allow you to apply your knowledge to real-life situations. A review of anatomy and physiology at the beginning of each body systems chapter provides a context for understanding the medical terminology. Drug information is integrated into the body systems chapters, with detailed information on specific drugs on CD. Caution boxes alert you to confusing terms. Spanish translations of key terms are listed in each chapter to help you communicate with Hispanic patients; glossaries are included in the appendix. Comprehensive end-of-chapter reviews correspond to the learning objectives at the beginning of the chapter. A bookmark includes a quick-reference guide to pronouncing terms plus a list of pronunciation symbols. A companion Evolve website includes study tips, electronic flashcards, Body Spectrum coloring pages, an English/Spanish glossary, learning activities that include Spanish term exercises, updates, and links to related sites.

This book of essays offers perspectives for college teachers facing the perplexities of today's focus on cultural issues in literature programs. The book presents ideas from 19 scholars and teachers relating to theories of culture-oriented criticism and teaching, contexts for these activities, and specific, culture-focused texts significant for college courses. The articles and their authors are as follows: (1) "Cultural Criticism: Past and Present" (Mary Poovey); (2) "Genre as a Social Institution" (James F. Slevin); (3) "Teaching Multicultural Literature" (Reed Way Dasenbrock); (4) "Translation as a Method for Cross-Cultural Teaching" (Anuradha Dingwaney and Carol Maier); (5) "Teaching in the Television Culture" (Judith Scot-Smith Girgus and Cecelia Tichi); (6) "Multicultural Teaching: It's an Inside Job" (Mary C. Savage); (7) "Chicana Feminism: In the Tracks of 'the' Native Woman" (Norma Alarcon); (8) "Current African American Literary Theory: Review and Projections" (Reginald Martin); (9) "Talking across Cultures" (Robert S. Burton); (10) "Walter Mitty in China: Teaching American Fiction in an Alien Culture" (H. W. Matalene); (11) "Text, Context, and Teaching Literature by African American Women" (Sandra Jamieson); (12) "Sethe's 'Big, Bad' Love" (Chauncey A. Ridley); (13) "Baldwin, Bebop, and 'Sonny's Blues'" (Pancho Savery); (14) "Filiative and Affiliative Textualization in Chinese American Literature" (David Leiwei Li); (15) "The Unheard: Vietnamese Voices in the Literature Curriculum" (Renny Christopher); (16) "Narrative Theory in Naguib Mahfouz's 'The Children of Gebelawi'" (Suzanne Evertsen Lundquist); and (17) "The Mixed Blood Writer as Interpreter and Mythmaker" (Patricia Riley). This powerful, unsettling book gives us a rare glimpse behind the closed doors of global financial institutions by the winner of the 2001 Nobel Prize in Economics. When it was first published, this national bestseller quickly became a touchstone in the globalization debate. Renowned economist and Nobel Prize winner Joseph E. Stiglitz had a ringside seat for most of the major economic events of the last decade, including stints as chairman of the Council of Economic Advisers and chief economist at the World Bank. Particularly concerned with the plight of the developing nations, he became increasingly disillusioned as he saw the International Monetary Fund and other major institutions put the interests of Wall Street and the financial community ahead of the poorer nations. Those seeking to understand why globalization has engendered the hostility of protesters in Seattle and Genoa will find the reasons here. While this book includes no simple formula on how to make globalization work, Stiglitz provides a reform agenda that will provoke debate for years to come. Rarely do we get such an insider's analysis of the major institutions of globalization as in this penetrating book. With a new foreword for this paperback edition.

Learning from Entrepreneurial Failure provides an important counterweight to the multitude of books that focus on entrepreneurial success. Failure is by far the most common scenario for new ventures and a critical part of the entrepreneurial process is learning from failure and having the motivation to try again. This book examines the various obstacles to learning from failure and explores how they can be overcome. A range of topics are discussed that include: why some people have a more negative emotional reaction to failure than others and how these negative emotions can be managed; why some people delay the decision to terminate a poorly performing entrepreneurial venture; anti-failure biases and stigmatism in organizations and society; and the role that the emotional content of narratives plays in the sense-making process. This thought-provoking book will appeal to academic researchers, graduate students and professionals in the fields of entrepreneurship and industrial psychology.

Outlines a mystical theology and experience of the sacred founded on the absence of god. Originally published in 1943, Inner Experience is the single most significant work by one of the twentieth century 's most influential writers. It outlines a mystical theology and experience of the sacred founded on the absence of god. Bataille calls Inner Experience a " narrative of despair, " but also describes it as a book wherein " profundity and passion go tenderly hand in hand. " Herein, he says, " The mind moves in a strange world where anguish and ecstasy take shape. " Bataille ' s search for experience begins where religion, philosophy, science, and literature leave off, where doctrines, dogmas, methods, and the arts collapse. His method of meditation, outlined and documented here, commingles horror and delight. Laughter, intoxication, eroticism, poetry, and sacrifice are pursued not as ends in and of themselves but as means of access to a sovereign realm of inner experience. This new translation is the first to include Method of Meditation and Post-Scriptum 1953, the supplementary texts Bataille added to create the first volume of his Summa Atheologica. This edition also offers the full notes and annotations from the French edition of Bataille ' s Oeuvres Compl è tes, along with an incisive introductory essay by Stuart Kendall that situates the work historically, biographically, and philosophically.
