19 The 14th Global Edition of Database Processing: Fundamentals,

Design, and Implementation refines the organization and content of this classic textbook to reflect a new teaching and professional workplace environment. Students and other readers of this book will benefit from new con-tent and features in this edition.

Database Processing Fundamentals, Design, and ...

To design a database for a new information system: System requirements are generated from forms, reports, user requirement statements, use cases and other

systems development documents. A data model is created. The data model is transformed into a database design. The database design is implemented in a DBMS as a database. 1.41 Explain two ways that databases can be redesigned.
