The G9 is Panasonic's first top of the line camera specifically designed for stills rather than being a stills/ video hybrid. With 60fps burst shooting, class leading stabilization, a user configurable menu system, 80Mp High Resolution mode and many other high end features it is of necessity a complex camera. As with any digital camera the heart of the machine is the menu system, consisting of around 180 entries, many with their own sub menus offering many hundred of options. It is no surprise then that even experienced users can find themselves scratching their heads as they wade through the mass of options.. This book goes through each and every every menu choice and explains what it does and why you might want to do it. It doesn't try to teach you photography. You wouldn't have chosen a G9 if you didn't already have some expertise. What my books aims to do is to familiarise yourself with the G9 and learn to tailor it to your own taste and needs. Having done that, you I think you will find using the G9 not only a pleasure but inspiring as well.

Retail supply chain consists of multiple segments from sales to distribution to finance. Retail manufacturers rely on a complicated web of suppliers. Customer demand and market competition today requires extreme efficiency from end to end. This book offers the retail supply chain executive with the tools needed for full strategic advantage. The new edition gives special attention to recent challenges, such as vast technological change, higher levels of customer personalization, and more global supply chains.

Learning and teaching mathematics in multilingual, bilingual or second language settings can be challenging. This collection explores the complex issues that arise in multilingual mathematics classrooms in Europe, South Asia, North America and Australia. Each contribution draws on recent research to offer new insights into the relationship between language, learning and mathematics.

Hannes Griebel studies space applications for the hypersonic drag balloon (ballute), specifically emergency low Earth orbit recovery and delivering payloads to high altitude landing sites on Mars. The author discusses the theory behind such a mission along with experience gained during its practical implementation, such as mission design, manufacturing, packing and deployment techniques as well as ground and flight tests.

The European Union is increasingly being asked to manage crises inside and outside the Union. From terrorist attacks to financial crises, and natural disasters to international conflicts, many crises today generate pressures to collaborate across geographical and functional boundaries. What capacities does the EU have to manage such crises? Why and how have these capacities evolved? How do they work and are they effective? This book offers an holistic perspective on EU crisis management. It defines the crisis concept broadly and examines EU capacities across policy sectors, institutions and agencies. The authors describe the full range of EU crisis management capacities that can be used for internal and external crises. Using an institutionalization perspective, they explain how these different capacities evolved and have become institutionalized. This highly accessible volume illuminates a rarely examined and increasingly important area of European cooperation.

Contents: When My Sugar Walks Down the Street \* Dixie Down Beat \* Who's Sorry Now? \* It Don't Mean a Thing (If It Ain't Got That Swing) \* I Can't Give You Anything But Love \* New Orleans Masquerade \* Randolph Street Strut \* Leavin' Town \* Blizzard Head Blues \* Coney Island Washboard \* Louella.

Roni Loren's sexy novel Not Until You picks up as Cela decides to leave the life of submission behind. But having had a taste of Foster's intense passion isn't making it easy to go back to her old ways... Not Until You, Part VII Not Until You Believe Having flirted with forbidden desires, Cela leaves Foster and returns home to her small Texas town to work in her father's veterinary practice and embrace a "normal" life. Everything is exactly how she left it--everything except her. But Foster made his feelings clear about their relationship, and she's determined to find a way forward without him...even if her heart refuses to let go. Foster knows that he made a mistake in letting Cela go before he told her his true feelings. Intending to set things right, he goes to her hometown to lay himself bare. But when he gets there, he sees Cela in a compromising situation that makes him doubt that they had anything special at all... Includes a bonus excerpt of Roni Loren's novel, Caught Up In You. More to come.Don't miss the stirring conclusion of Not Until You, Part VIII

World-renowned behavioral scientists Jane Goodall and Marc Bekoff have set forth ten trusts that we must honor as custodians of the planet. They argue passionately and persuasively that if we put these trusts to work in our lives, the earth and all its inhabitants will be able to live together harmoniously. The Ten Trusts expands the concept of our obligation to live in close relationship with animals -- for, of course, we humans are part of the animal kingdom -- challenging us to respect the interconnection between all living beings as we learn to care about and appreciate all species. The world is changing. We are gradually becoming more aware of the damage we are inflicting on the natural world. At this critical moment for the earth, Goodall and Bekoff share their hope and vision of a world where human cruelty and hatred are transformed into compassion and love for all living beings. They dream of a day when scientists and non-scientists can work together to transform the earth into a place where human beings live in peace and harmony with animals and the natural world. Simple yet profound, The Ten Trusts will not only change your perspective regarding how we live on this planet, it will establish your responsibilities as a steward of the natural world and show you how to live with respect for all life.
