As with Drive, Sallis spent the book building up tension that one would expect to be dispelled after some climactic event. This style of writing, in addition to the fact that the book was marketed as a sequel to drive, left even more of a sour taste in my mouth when I was presented with yet another open ending.

Sallis's slim sequel to his acclaimed Drive might at first glance seem like a prose poem or a children's book. With its close attention to telling detail and a vocabulary that rarely ranges beyond two-syllable words, it is a bit of both, mixed with interludes of extreme violence, in an angst-drenched Phoenix.

"The perfect piece of noir fiction." —New York Times Book Review "Terse, brutal, poetic, perfectly wrought." —Publishers Weekly STARRED review At the end of Drive, Driver has killed Bernie Rose, "the only one he ever mourned," ending his campaign against those who double-crossed him. Driven tells how that young man, done with killing, becomes the one who goes down "at 3 a.m. on a clear, cool morning in a Tijuana bar." Seven years have passed. Driver has left the old life, become Paul West, and founded a successful business back in Phoenix. Walking down the street one day, he and his fiancée are attacked by two men and, while Driver dispatches both, his fiancée is killed. Sinking back into anonymity, aided by his friend Felix, an ex-gangbanger and Desert Storm vet, Driver retreats but finds that his past stalks him and will not stop. He has to turn and face it. Because he drives. That's what he does.

Much later, as he sat with his back against an inside wall of a Motel 6 just north of Phoenix, watching the pool of blood lap toward him, Driver would wonder whether he had made a terrible mistake. Later still, of course, there'd be no doubt. But for now Driver is, as they say, in the moment. And the moment includes this blood lapping toward him, the pressure of dawn's late light at windows and door, traffic sounds from the interstate nearby, the sound of someone weeping in the next room .Thus begins Drive, a new novella by one of the nation's most respected and honored writers of noir fiction. Set mostly in Arizona and L.A., the story is, according to Sallis, "about a guy who does stunt driving for movies by day and drives for criminals at night. In classic noir fashion, he is double - crossed and, though before he has never participated in the violence ('I drive. That's all.'). he goes after the ones who doublecrossed and tried to kill him."

Driver thinks he has settled into a normal life, but after his fiancée is killed he must confront his criminal past.

A spare, sparkling tour de force about one woman's journey to becoming a cop, by master of noir James Sallis, author of Drive. Sarah Jane Pullman is a cop with a complicated past. From her small-town chicken-farming roots through her runaway adolescence, court-ordered Army stint, ill-advised marriage and years slinging scrambled eggs over greasy spoon griddles, Sarah Jane unfolds her life story, a parable about memory, atonement, and finding shape in chaos. Her life takes an unexpected turn when she is named the de facto sheriff of a rural town, investigating the mysterious disappearance of the sheriff whose shoes she 's filling—and the even more mysterious realities of the life he was hiding from his own colleagues and closest friends. This kaleidoscopic character study sparkles in every dark and bright detail—a virtuoso work by a master of both and the tender aspects of human nature.

Mulholland Books takes pleasure in restoring to print an acclaimed novel of espionage and suspense by the author of Drive. David (as he's currently known) was a member of an elite corps of spies trained during the coldest days of the Cold War. For almost a decade he has been out of the game, working as a sculptor. Then a phone call in the middle of the night awakens him: the only other survivor from that elite corps has gone rogue. David is tasked with stopping him. What ensues is an existential cat-and-mouse game played out across the American landscape, through the diners and motels that dot the terrain like green plastic houses on a Monopoly board. Both a suspenseful novel of pursuit and a thematically rich exploration of the mind of a spy, Death Will Have Your Eyes is a contemporary classic of the espionage genre.

In his acclaimed career, James Sallis has created some of the most finely drawn protagonists in crime fiction, all of them memorable observers of the human condition: Lew Griffin, the existential black New Orleans private investigator; retired detective John Turner; the unnamed wheelman in Drive. Dr. Lamar Hale will now join the ranks of Sallis's finest characters. In the woods outside the town of Willnot in rural Virginia, the remains of several people have suddenly been discovered, unsettling the community and Hale, the town's all-purpose general practitioner, surgeon, and town conscience. At the same time, Bobby Lowndes--military records disappeared, of interest to the FBI--mysteriously re-appears in his home town, at Hale's door. "Willnot was a lake into which rocks had been thrown; mud still swirled." Over the ensuing months, the daily dramas Hale faces as he tends to his town and to his partner, Richard, bump up against the inexplicable vagaries of life in Willnot. And when a gunshot aimed at Lowndes critically wounds Richard, Hale's world is truly upended. Just as great artists can draw a face and create a presence in a few brush strokes, James Sallis conjures indelible characters and scenes in a few sentences. In its brilliant conciseness Willnot presents an unforgettable world. "You live with someone year after year, you think you've heard all the stories," Lamar observes, "but you never have."

The mystery of private investigator Lew Griffin is revealed in the conclusion of this critically acclaimed, groundbreaking series. In his old house in uptown New Orleans, Lew Griffin stands alone in a dark room, looking out. Behind him on the bed is a body. Instead of speaking, he reflects on his life—his failing relationship, his missing son, the fact that he hasn't written in years—and how the two of them ended up there. In a novel as much about identity as about crime, the answers to Lew 's personal mysteries begin to become clear in the series ' brilliantly constructed climax.

The poignant and surprising new thriller by one of America's most acclaimed writers. Few American writers create more memorable landscapes--both natural and interior--than James Sallis. His highly praised Lew Griffin novels evoked classic New Orleans and the convoluted inner space of his black private detective. More recently--in Cypress Grove and Cripple Creek--he has conjured a small town somewhere near Memphis, where John Turner--ex-policeman, ex-con, war veteran and former therapist--has come to escape his past. But the past proved inescapable; thrust into the role of Deputy Sheriff, Turner finds himself at the center of his new community, one that, like so many others, is drying up, disappearing before his eyes. As Salt River begins, two years have passed since Turner's amour, Val Bjorn, was shot as they sat together on the porch of his cabin. Sometimes you just have to see how much music you can make with what you have left. Val had told him, a mantra for picking up the pieces around her death, not sure how much he or the town has left. Then the sheriff's long-lost son comes plowing down Main Street into City Hall in what appears to be a stolen car. And waiting at Turner's cabin is his good friend, Eldon Brown, Val's banjo on the back of his motorcycle so that it looks as though he has two heads. "They think I killed someone," he says. Turner asks: "Did you?" And Eldon responds: "I don't know." Haunted by his own ghosts, Turner nonetheless goes in search of a truth he's not sure he can live with.

The fourth Lew Griffin novel Lew Griffin is a survivor, a black man in New Orleans, a detective, a teacher, a writer. And he is a man subject to all of the frailties to which we are heir. Having spent years finding others, he has lost his son - and himself in the process. Now a derelict has appeared in a New Orleans hospital claiming to be Lewis Griffin and displaying a copy of one of Lew's novels. It is the beginning of a quest that will take Griffin into his own past while he tries to deal in the present with a search for three missing young men. 'Classic American crime of the highest order' - Time Out 'He's right up there, one of the best of the best. His series of novels about private eye Lew Griffin is thoughtful, challenging and beautifully written' - Iain Sinclair, Guardian 'James Sallis is a superb writer' - The Times Don't miss the other novels in the Lew Griffin series: The Long Legged Fly, Moth, Black Hornet, Eye of the Cricket, Bluebottle and Ghost of a Flea.

Over the past five years, James Sallis has created three of the most acclaimed mysteries published in America, each of them featuring the complex John Turner--former cop, therapist, and an ex-con, trying to escape his past, yet ever involved in the small community somewhere near Memphis where he has sought refuge. The Turner Trilogy--concise, elegiac, memorable--collects these three classics in one paperback volume.
