Fetal Pig Dissection Lab Whitman

Virtual Fetal Pig Dissection. Welcome to the Whitman College Biology Department's Virtual Pig Dissection (VPD)! This site is designed as a supplement to laboratory dissections exploring introductory mammalian anatomy and physiology – it is basic and many details have been omitted for clarity. We hope that it is suitable for AP Biology students or for students of introductory anatomy and physiology at the college level.

Virtual Fetal Pig Dissection | Whitman College

About. About the Whitman College Virtual fetal Pig Dissection (revised) In May 2011, our Whitman College team completed a revision of the Virtual fetal Pig Dissection (VPD) to improve its accessibility, accuracy, overall lesson content, and consistency with introductory biology texts. This revision builds on the original version funded by the Howard Hughes Medical Institute and developed by former Whitman Biology Professor, Earl W. Fleck, Ph.D.

About the Virtual Pig Dissection Project | Whitman College

Whitman College - Virtual Fetal Pig Dissection PART 1: PRE-LAB PREP The objective of this dissection is to develop an appreciation for how all the organ systems are connected physically. Each day you will locate the structures indicated in the checklists below and you will answers questions based on these structures.

Digestive system | Whitman College

This image shows a cross section of the fetal pig heart, created by cutting through the ventricles of the heart at the level indicated. The ventricles are separated by the interventricular septum. The atria are also separate from one another, so that the de-oxygenated blood of the right chambers is kept separate from the oxygenated blood of the left chambers.

Pig heart cross section | Whitman College

This section will outline some basic anatomic terms of the pig. IMPORTANT-- throughout the site, when we use "left" (e.g., left ventricle), we are referring to the pig's left. In some cases, we will refer to regions of the photo and have attempted to make it clear that this is "left of the photo", which may be different from the pig's left.

Virtual Fetal Pig Dissection Lab - YouTube

Although the size of the fetus pig is smaller than that of the human body the organization of the major organs and the functions of such organs are still the same. This pig dissection is designed to visually show students the different systems inside a pig and, indirectly, their own bodies. Upon dissection they see the heart, the major organ in the circulatory system that pumps the oxygenated blood around the body; the lungs, the major organ in the respiratory system that provides oxygen to ...

Fetal Pig Dissection Lab Answers | SchoolWorkHelper

Fetal Pig Dissection Guide Project A fetal pig is a great choice for dissection because the size of the organs make them easy to find and identify. It is also a very exciting dissection because, like sheep and their organs, the internal anatomy is similar to humans! It is fascinating to see how all the organs fit and work together.
