Popular Mechanics inspires, instructs and influences readers to help them master the modern world. Whether it's practical DIY home-improvement tips, gadgets and digital technology, information on the newest cars or the latest breakthroughs in science -- PM is the ultimate guide to our high-tech lifestyle.

Managing Innovation: New Technology, New Products, and New Services in a Global Economy, 2nd Edition is devoted to providing a better understanding and better management of all of the causes and consequences of change that have technological implications in and around our global organizations. This text is a unique, original contribution and represents a significant alternative to the collection of chapters written by others. The second edition has new cases with a few classics from the first edition that have been retained in response to reader feedback. The key subjects that are included have been significantly updated and treated in greater depth. The number of chapters has been reduced from 12 to 10 so it is easy to adapt to almost any course or training on the subject in any discipline or to any audience. This exceptionally informative book provides a broad perspective on how technological change can be effectively managed in modern organizations. The text explains the conceptual frameworks supported by new and original case studies for start-up companies like Askmen.com, the complex challenges of managing international technology-based companies like NexPress (a joint venture of Kodak and Heidelberg) in the digital printing industry, and corporate sustainability using innovative new product technologies illustrated by the case of Evinrude's launch of the E-tec® outboard

motor. John E. Ettl's three decades in the field of innovation as an instructor and researcher bring an exceptional perspective to this subject. His text is unique in its discussion of how technology has transformed the service sector. Few books on technology make the distinction between new offerings in manufacturing and the service sector which is emphasized in this text.
