I was a little surprised to discover that this book was written in 1996 and was the first of Tess Gerritsen's medical thrillers. It reminds me of the early works of Patricia Cornwell and Kathy Reichs, other authors who, like Tess Gerritsen became authors following successful careers in particular fields of science or medicine.

The repercussions are powerful and swift and Abby is shaken but unrepentant—until she meets the frail, tormented Nina. Then a new heart for Nina Voss suddenly appears, her transplant is completed, and Abby makes a terrible discovery: Nina’s heart has not come through the proper channels. Defying Bayside Hospital’s demands for silence, Abby plunges into an investigation that reveals an intricate, and murderous, chain of deceptions. Every move Abby makes spawns a vicious backlash and, in a ship anchored in the stagnant waters of Boston Harbor, a final, grisly discovery lies waiting...
