IGCSE CAMBRIDGE | Past Papers Yearly | Exam-Mate

Past Papers Past papers are possibly the most useful resource when carrying out revision. They enable you to gauge your subject knowledge and uncover your strengths and weaknesses, enabling you to understand what areas you need to devote more time to and conversely, what areas you can devote less time to.

Cambridge IGCSE Computer Studies Revision Guide is designed to help students prepare for the examination. The book instills confidence and a thorough understanding of the topics learned by the students as they revise for an examination in Computer Studies.

This second edition of a GCSE computer studies text includes chapters on personal computers and desktop publishing, spreadsheets and their applications, and detailed case studies illustrating how a computer system can revolutionize the working environment. The Data Protection Act is also included, together with project work, an extended section on coursework, advice on how to revise and hints on how to pass examinations. Key words are explained in the text in context and highlighted with bold type, and also explained in an extensive glossary.

Cambridge IGCSE Computer Science Revision Guide follows the Cambridge IGCSE (0478) and Cambridge O Level (2210) Computer Science syllabuses, matching the syllabus for examination from 2015. The book instils confidence and thorough understanding of the topics learned by the students as they revise for examinations, and is written in a clear and straightforward tone to assist learning concepts and theories. This revision guide is endorsed by Cambridge International Examinations.

Endorsed by Cambridge International Examinations. Develop your students computational thinking and programming skills with complete coverage of the latest syllabus from experienced examiners and teachers. - Follows the order of the syllabus exactly, ensuring complete coverage - Introduces students to self-learning exercises, helping them learn how to use their knowledge in new scenarios Accompanying animation files of the key concepts are available to download for free online. See the Quick Links to the left to access. This book covers the IGCSE (0478), O Level (2210) and US IGCSE entry (0473) syllabuses, which are for first examination 2015. It may also be a useful reference for students taking the new Computer Science AS level course (9608).

This resource is written to follow the updated IGCSE® Computer Science syllabus 0478 with examination from June and November 2016. Cambridge IGCSE® and O Level Computer Science Programming Book for Python accompanies the Cambridge IGCSE and O Level Computer Science coursebook, and is suitable for students and teachers wishing to use Python in their studies. It introduces and develops practical skills to guide students in developing coding solutions to the tasks presented in the book. Starting from simple skills and progressing to more complex challenges, this book shows how to approach a coding problem using Structure Diagrams and Flow Charts, explains programming logic using pseudocode, develops Python programming skills and gives full solutions to the tasks set.

Build confidence for the latest Cambridge syllabus with the practical, skills-based approach of Complete Computer Science. The Student Book is supported by an extensive Teacher Guide to help you effectively deliver the course. Ensure understanding and strengthen achievement with extensive programming support and practical activities.

This book constitutes the refereed proceedings of the 15th Conference on Computability in Europe, CIE 2019, held in Durham, UK, in July 2019. The 20 revised full papers presented were carefully reviewed and selected from 35 submissions. In addition, this volume includes 7 invited papers. The conference CIE 2018 had the following six special sessions: computational neuroscience, history and philosophy of computing, lowness notions in computability, probabilistic programming and higher-order computation, smoothed and probabilistic analysis of algorithms, and transnite computations.

This new resource is written to follow the updated IGCSE Computer Science syllabus 0478 with examination in June and November 2016.
