## Keeper Of Genesis: A Quest for the Hidden Legacy of ...

Keeper of Genesis introduces us to a culture of people where the entire society was founded and built on the 'The Laws Of Cosmic Order' and 'The Cycles of Nature'. Keeper Of Genesis brings me closer to the final leg of a journey that for me began in the mid-1970's in Washington DC where I saw for the first time 'The King Tut Exhibit'.

In Keeper of Genesis, Robert Bauval and Graham Hancock present a tour de force of historical and scientific detective work and answer the following questions: When and where did history begin? When was the genesis of civilisation in Egypt? How and why were the Great Sphinx and the three pyramids of Giza designed to serve as parts of an immense three-dimensional model of the sky of 'First Time'? What is contained in the rectangular chamber that seismic surveys have located in the bedrock far below the paws of the sphinx? What lies behind the mysterious doors recently discovered at the end of a previously unexplored shaft inside the Great Pyramid? And does mankind have a rendezvous with destiny - a rendezvous not in the future, but in the distant past - at a precise place and time? Using sophisticated computer

## File Type PDF Keeper Of Genesis A Quest For The Hidden Legacy Mankind Robert Bauval

simulations of the ancient skies to crack the millennial code that the monuments transcribe, Bauval and Hancock set out a startling new theory concerning the Pyramid Texts and other archaic Egyptian scriptures.

In the last three years a covert archaeological search has taken place at Giza to locate the Hall of Records under the Sphinx and also find a reputed secret room inside the Great Pyramid.

Could the story of mankind be far older than we have previously believed? Using tools as varied as archaeo-astronomy, geology, and computer analysis of ancient myths, Graham Hancock presents a compelling case to suggest that it is. "A fancy piece of historical sleuthing . . . intriguing and entertaining and sturdy enough to give a long pause for thought." Kirkus Reviews In *Fingerprints of the Gods*, Hancock embarks on a worldwide quest to put together all the pieces of the vast and fascinating jigsaw of mankind's hidden past. In ancient monuments as far apart as Egypt's Great Sphinx, the strange Andean ruins of Tihuanaco, and Mexico's awe-inspiring Temples of the Sun and Moon, he reveals not only the clear fingerprints of an as-yet-unidentified civilization of remote antiquity, but also startling evidence of its vast sophistication, technological advancement, and evolved scientific knowledge. A record-breaking number one bestseller in Britain, *Fingerprints of the Gods* contains the makings of an intellectual revolution, a dramatic and irreversible change in the way that we understand our past—and so our future. And *Fingerprints of God* tells us something more. As we recover the truth about prehistory, and discover the real meaning of ancient myths and monuments, it becomes apparent that a warning has been handed down to us, a warning of terrible cataclysm that afflicts the Earth in great cycles at irregular intervals of time—a cataclysm that may be about to recur. "Readers will hugely enjoy their quest in these pages of inspired storytelling." *The Times* (UK)

*Talisman* is a roller-coaster intellectual journey through the back streets and rat runs of history to uncover the traces in architecture and monuments of a secret religion that has shaped the world. The story takes us from Heliopolis to Luxor, Alexandria, Toulouse, Florence, Rome, Paris, London, Washington DC, New York, and finally to the global pandemonium following 9/11/2001. It is a tale filled with romance and intrigue, heroism and faith, peopled by ancient Egyptian astronomer priests, Christian Gnostics, Hermetic sages, learned Jews, Arab savants, Occitan Counts, Cathar 'perfecti', Knights Templar, Renaissance magi, Rosicrucian 'invisibles', Bavarian Illuminati and Freemasons. An amazing new quest.

## File Type PDF Keeper Of Genesis A Quest For The Hidden Legacy Mankind Robert Bauval

A journalist tells of his quest to find the Ark of the Covenant, how he traced it to a remote corner of war-torn Ethiopia, and the significance of the Ark and its mysterious disappearance

The Master Game is a rollercoaster intellectual journey through the back streets and rat runs of history to uncover the traces in architecture and monuments of a secret religion that has shaped the world. Pivotal historical events and processes, not least the Renaissance, the birth of scientific rationalism, and the French and American revolutions, are radically reevaluated in the light of new investigative evidence presented in The Master Game. Even the belief that the United States has a "global mission," so obvious today, may ultimately prove to be less the result of a shortterm reaction to terrorism than the inevitable working out of a covert plan originally set in motion almost two thousand years ago. The Master Game refers to a scheme or "game" played on the world stage to bring about a world order governed by a lofty goal which, today, we term the "Masonic Ideal." The Master Game traces the origins of this game of symbols and words and talismans from ancient Egypt all the way to modern times, and places it squarely on the elitist Scottish Rite Freemasonry, headquartered in Washington, DC, and ruled by a secretive and powerful brotherhood of men who have attained the thirtythird degree. The Master Game exposes this world order's true purpose and, more importantly, shows how it has affected the United States of America and badly backfired on 9/11. The book is adapted and expanded from the authors' earlier, outofprint book Talisman.
