The seven Golden rules of Learning-raises some interesting points for me. I have been teaching in the classroom for fifteen years and applying these ground rules. Now moving across to a blended learning model I question how I will accommodate the individual learning styles to best support the student.

Machine learning and rules-based
systems are widely used to make
inferences from data. The two
approaches have their strengths and
weaknesses, and it is useful to have a
grasp of both. Although not as hyped
at the moment, rules-based systems
do still have their place and it is worth
understanding the distinction between
these methods and where they might
be valuable.
