In the Foreword to *Night*, the first-person documentary that he helped Wiesel publish, Mauriac alludes to the eighteenth-century Enlightenment, an optimistic, progressive period of rational thought from which evolved an overthrow of the monarchy during the French Revolution in 1789. Although he believes in the principles of the Enlightenment and ...

The narrative of a boy who lived through Auschwitz and Buchenwald provides a short and terrible indictment of modern humanity.

"Wiesel's account of his time in concentration camps during the Holocaust with updated front and back matter to include speeches and essays commemorating his recent death"--

All But My Life is the unforgettable story of Gerda Weissmann Klein's six-year ordeal as a victim of Nazi cruelty. From her comfortable home in Bielitz (present-day Bielsko) in Poland to her miraculous survival and her liberation by American troops--including the man who was to become her husband--in Volary, Czechoslovakia, in 1945, Gerda takes the reader on a terrifying journey. Gerda's serene and idyllic childhood is shattered when Nazis march into Poland on September 3, 1939. Although the Weissmanns were permitted to live for a while in the basement of their home, they were eventually separated and sent to German labor camps. Over the next few years Gerda experienced the slow, inexorable stripping away of "all but her life." By the end of the war she had lost her parents, brother, home, possessions, and community; even the dear friends she made in the labor camps, with whom she had shared so many hardships, were dead. Despite her horrifying experiences, Klein conveys great strength of spirit and faith in humanity. In the darkness of the camps, Gerda and her young friends manage to create a community of friendship and love. Although stripped of the essence of life, they were able to survive the barbarity of their captors. Gerda's beautifully written story gives an invaluable message to everyone. It introduces them to last century's terrible history of devastation and prejudice, yet offers them hope that the effects of hatred can be overcome.

Relates the story of a U.S. airman who survived when his bomber crashed into the sea during World War II, spent forty-seven days adrift in the ocean before being rescued by the Japanese Navy, and was held as a prisoner until the end of the war.

Frankenstein; or, The Modern Prometheus is a novel written by the British author Mary Shelley. The first edition was published anonymously in London in 1818, and Shelley's name appeared on the revised third edition, published in 1831. The title of the novel refers to the scientist, Victor Frankenstein, who learns how to create life and creates a being in the likeness of man, but larger than average and more powerful. In modern popular culture, people have tended to refer to the Creature as "Frankenstein" (especially in films since 1931), despite this being the name of the scientist, and the creature being unnamed in the book itself. Frankenstein is a novel infused with elements of the Gothic novel and the Romantic movement. It was also a warning against the "over-reaching" of modern man and the Industrial Revolution, alluded to in the novel's subtitle, The Modern Prometheus. The story has had an influence across literature and popular culture and spawned a complete genre of horror stories and films. It is arguably considered the first fully-realised science fiction novel and raises many issues still relevant to today's society.

The hermetic tradition claims "As above, so below". Did the ancients mean that literally? Stars, Stones and Scholars shows that many ancient megalithic sites are not tombs, but are remnants of ancient local, regional and perhaps even larger Neolithic surveys of the Earth by Stone Age astronomy, with gigantic stones being placed as immovable survey markers. Circa 40 photographs, 240 drawings and 80 maps show how megaliths were carved and "sculpted" with figures and cupmarks (holes in the stones) to represent stars and constellations, long before the modern astrological Zodiac was known. Megalithic sites from England (Stonehenge), Wales (Paviland), Scotland (Clava Cairns), Ireland (Newgrange, Knowth), Germany (Externsteine), Benelux (Wesis), France (Carnac), Italy (La Spezia), Malta (Tarxien), Greece, Turkey (Anatolia), Scandinavia (Tanum), the Baltic, Russia, the Near East, the Far East (China and Japan), Africa, Central and South America (Tikal, Maya, Aztecs), Oceania (Hawaii), The USA (Cahokia, Miami Circle, Clovis) and Canada (Peterborough Petroglyphs) are included in this fascinating book.

Read PDF Night Preface Questions And Answers

Offers essays on Bosnia, the genocide in Rwanda, sweatshops and globalization, and the political obligations of the mothers of Argentina's Disappeared. In this book, readers may be fascinated by the ways in which essays on conflict, conscience, memory, illness (essay on AIDS), and God overlap and resonate with one another.

In response to a request from the Office of Science and Technology Policy and the Office of the Assistant Secretary for Preparedness and Response, the National Academies of Sciences, Engineering, and Medicine convened a standing committee of experts to help inform the federal government on critical science and policy issues related to emerging infectious diseases and other 21st century health threats. This set of Rapid Expert Consultations are the first of their kind and represent the best evidence available to the Committee at the time each publication was released. The science on these issues is continually evolving, and the scientific consensus the Committee reaches on these topics will likely evolve with it. The standing committee includes members with expertise in emerging infectious diseases, public health, public health preparedness and response, biological sciences, clinical care and crisis standards of care, risk communication, and regulatory issues.

This masterfully crafted horror classic, featuring a brand-new introduction by Dan Simmons, will bring you to the edge of your seat, hair standing on end and blood freezing in your veins It's the summer of 1960 and in the small town of Elm Haven, Illinois, five twelve-year-old boys are forging the powerful bonds that a lifetime of change will not break. From sunset bike rides to shaded hiding places in the woods, the boys' days are marked by all of the secrets and silences of an idyllic middle-childhood. But amid the sundrenched cornfields their loyalty will be pitilessly tested. When a long-silent bell peals in the middle of the night, the townsfolk know it marks the end of their carefree days. From the depths of the Old Central School, a hulking fortress tinged with the mahogany scent of coffins, an invisible evil is rising. Strange and horrifying events begin to overtake everyday life, spreading terror through the once idyllic town. Determined to exorcize this ancient plague, Mike, Duane, Dale, Harlen, and Kevin must wage a war of blood—against an arcane abomination who owns the night...

From one of America's most inspiring leaders, a book about the core truths that unite us and how best to act upon them, The daughter of immigrants and civil rights activists, Senator Kamala Harris was raised in an Oakland, California, community that cared deeply about social justice. As she rose to prominence as one of the political leaders of our time, her experiences would become her guiding light as she grappled with an array of complex issues and learned to bring a voice to the voiceless. Now, in *The Truths We Hold*, she reckons with the big challenges we face together. Drawing on the hard-won wisdom and insight from her own career and the work of those who have most inspired her, she communicates a vision of shared struggle, shared purpose, and shared values as we confront the great work of our day. Book jacket.
