“A detailed and provocative study of how capital has changed since the 1980s and its effects on the working class and political parties in the USA.” —Scottish Left Review On New Terrain challenges conventional wisdom about a disappearing working class and the inevitability of a two-party political structure as the only framework for struggle. Through in-depth study of the economic and political shifts at the top of society, Moody shows how recent developments in capitalist production impact the working class and its power to resist the status quo. He argues that this transformed industrial

terrain offers new possibilities for organization in the workplace and opens doors for grassroots, independent political action strengthened by reemerging labor and social movements. From the logistics revolution to the unprecedented concentration of business and wealth in the hands of the one percent, *On New Terrain* examines the impact of the current economic terrain on the working class in the United States. Looking beyond the clichés of precarity and the gig economy, Moody shows that the working class and its own self-activity are essential in the global battle against austerity. “[A] masterful and much-needed book.” —Solidarity “Immediately shakes the reader by offering a hard hitting, concrete and sober analysis of the transformation of both the capitalist and working classes of the USA.” —Bill

Jewish Studies classrooms are legendary for their lack of discipline; Jewish schools of all formats are hard-pressed to find qualified teachers; and the quality of Jewish Studies curricula is lacking. Practical Pedagogy for the Jewish Classroom encourages Jewish professionals in education to review their own practices in these areas and challenges them to re-imagine and develop their own unique approach to teaching Jewish Studies so that they can articulate and implement their own visions of Jewish education.

presentation and discussion at the 2nd International Conference on Smart Learning Ecosystems and Regional Developments (SLERD 2017), held 22–23 June What characterizes smart learning ecosystems? What is their role in city and regional development and innovation? How can we promote the engagement of citizens in smart learning ecosystems? These are some of the questions addressed at SLERD 2017 and documented here. The proceedings include scientific papers that endeavor to understand, devise and promote innovative human-centric design and development methods, education/training practices, informal social learning, and citizen-driven policies. The individual papers elaborate on the notion of smart learning ecosystems, study the relation of smart learning ecosystems with As such, they

In this enthralling science-fiction debut, a young girl learns that getting the best revenge takes more than secret powers—it takes luck. Valentine Bell spends her days aboard the luxury cruise ship “The Heart of Io,” traveling back and forth between earth and beautiful, mysterious Vala, a planet where the jungle holds a universe-altering secret. Born with a scar that bestows luck upon anyone who touches it, Valentine remains unaware of her secret power. All she knows is that

she seeks greater adventures than what life has provided for her. She finds it in the form of Orion Sides. Orion recruits Valentine into his father's gang of thugs and thieves who run the ship's underworld. Aided by her de-facto dad, Tycho, and her best friend, Luke, Valentine realizes that Orion's been using her powers to pull off a heist, and when a set of priceless jewels goes missing from the cabin of a powerful Ambassador, Valentine is sure she knows who's taken them. Out for revenge, Valentine embarks upon a dangerous journey that takes her into the Valan jungle, spurred on by strange connections, greater adventures, and unraveling her own tangled history. Rowan Maness's stunning first novel invites readers into a dizzying world unlike any they've ever seen, and introduces a character whose journey will enchant
