The story of the International Union of Operating Engineers (IUOE), AFL-CIO, during the period 1960-1993, drawing on extensive interviews of members. Part I traces the causes and consequences of the union's rapid growth during the period 1960-75. Part II covers a period of marked membership decline and the beginnings of the recovery during the years 1975-93, and closes with an appraisal of the union's future. Paper edition (unseen), \$21.95.
