This study was performed to offer family pediatricians consensus-based algorithms on the management of the most common gastrointestinal symptoms in infants. Methods A group of pediatric gastroenterologists and pediatric allergists from Europe, USA, Latin America, and Asia developed guidelines and practical algorithms to assist general pediatricians in addressing this challenge.

Practical algorithms for managing common gastrointestinal ...

Practical Algorithms in Pediatric Gastroenterology. Unlike adult gastroenterology, pediatric gastroenterology is characterized by developmental disorders; the approach to the same disease condition may therefore be widely different, and there is an increasing need from pediatric gastroenterologists and pediatricians for easy diagnostic tools. Algorithms provide a logical, concise and cost-effective approach to medical reasoning and help avoid excessive unnecessary procedures and testing.
