A new collection of essays from Dodie Bellamy on disenfranchisement, vulgarity, American working-class life, aesthetic values, and profound embarrassment. So. Much. Information. When does one expand? Cut back? Stop researching? When is enough enough? Like Colette's aging courtesan Lea in the Ch é ri books, I straddle two centuries that are drifting further and further apart. --Dodie Bellamy, "Hoarding as Ecriture" This new collection of essays, selected by Dodie Bellamy after the

death of Kevin Killian, her companion and husband of thirty-three years, circles around loss and abandonment large and small. Bellamy's highly focused selection comprises pieces written over three decades, in which the themes consistent within her work emerge with new force and clarity: disenfranchisement, vulgarity, American working-class life, aesthetic values, profound embarrassment. Bellamy writes with shocking, and often hilarious, candor about the experience of turning her literary archive over to the Beinecke Rare Book & Manuscript Library at Yale and about being targeted by an enraged online anti-capitalist stalker. Just as she did in her previous essay collection, *When The Sick Rule The World*, Bellamy examines aspects of contemporary life with deep intelligence, intimacy, ambivalence, and calm.
