Social learning theory is the idea that people assimilate behavior from those around them by observing those people's actions. This theory best applies for analyzing and understanding certain serial killer's motives. In this instance, Richard Ramirez is a perfect subject on applying

Richard Ramirez : Social Learning Theory To A Serial Killer

This article contends that this is not the case, but that the killer is behaving in a manner which makes sense and is logical to the killer and is a response to some perceived wrong. The process through which this response occurs is detailed. The conclusion suggests that if serial murder is indeed a learned response then this response can be "unlearned" and the serial murderer can be restored to again function within society.
