Incredible Stone Sculptures. Jiyuseki is a Japanese artist and sculptor who carves incredible sculptures in stone to create a perfect illusion of a soft or elastic material. It's amazing how realistic the effect looks, even though he doesn't remove the rough texture of the stones. Stone Sculpture by Japanese Artist Jiyuseki

Stone Sculptures by Japanese Artist Jiyuseki

Kintsugi, also known as kintsukuroi, is the Japanese art of repairing broken pottery by mending the areas of breakage with lacquer dusted or mixed with powdered gold, silver, or platinum, a method similar to the maki-e technique. As a philosophy, it treats breakage and repair as part of the history of an object, rather than something to disguise. Repair work on Mishima ware hakeme-type tea bowl with kintsugi gold lacquer, 16th century Small repair on Nabeshima ware dish with hollyhock design, ov

Kintsugi - Wikipedia

One of the most important collections of Gandharan art in private hands, Devotion in Stone: Gandharan Masterpieces from Private Japanese Collection features iconic and well-published examples of Buddhist figures, friezes and narrative reliefs. Highlights include a rare and magnificent gray schist triad of Buddha Shakyamuni with bodhisattvas, one of a very few dated Gandharan works of art known; published in more than thirty publications, the triad is perhaps the most important Gandharan ...

Devotion in Stone: Gandharan Masterpieces from a Private ...

The Japanese rock garden or "dry landscape" garden, often called a zen garden, creates a miniature stylized landscape through carefully composed arrangements of rocks, water features, moss, pruned trees and bushes, and uses gravel or sand that is raked to represent ripples in water. A zen garden is usually relatively small, surrounded by a wall, and is usually meant to be seen while seated from a single viewpoint outside the garden, such as the porch of the hojo, the residence of the chief monk

Japanese rock garden - Wikipedia

? Kutsu-nugi Ishi (????) – Stepping Stone. A kutsu-nugi ishi is a stone step or slab placed in front of the engawa or inside the main entrance to the house. Footwear can be removed here and left on the step before entering the house. ? En-no-Shita (???) – Under-floor Space

The Japanese House: The Basic Elements of Traditional ...

The art of garden making was probably imported into Japan from China or Korea. Records show that the imperial palaces had gardens by the 5th century ce , their chief characteristic being a pond with an islet connected to the shore by bridges—as is shown by later references to these precedents in Emperor Sh?mu 's (724–756) three gardens in Nara .

Japanese garden | Elements, Types, Examples, & Pictures ...

Japanese art is the painting, calligraphy, architecture, pottery, sculpture, and other visual arts produced in Japan from about 10,000 BCE to the present. Within its diverse body of expression, certain characteristic elements seem to be recurrent: adaptation of other cultures, respect for nature as a model, humanization of religious iconography, and appreciation for material as a vehicle of meaning.

Japanese art | History, Characteristics, & Facts | Britannica

Japanese art covers a broad spectrum with mediums and types that include painting, origami, wood-block prints, literature, pottery, sculpture, calligraphy, architecture, and manga. The earliest Japanese people created statuettes and pottery vessels.

Ancient Japanese Art - Arthistory.net

Rock balancing or stone balancing (stone or rock stacking) is an art, discipline, or hobby in which rocks are naturally balanced on top of one another in various positions without the use of adhesives, wires, supports, rings or any other contraptions which would help maintain the construction's balance. The number of rock piles created in this manner in natural areas has recently begun to ...

Stone Appreciation was well organized, complete and well illustrated. The generous photo examples are very helpful. Although the book clearly indicated that it pertained to Suiseki and Bonsai stones I was hoping for more on the general appreciation for stones in in the Japanese culture.

Amazon.com: Customer reviews: Japanese Art of Stone ...

Japanese swords, or nihonto, are polished using around 7 to 8 types of whetstones (sword polishing stones). After the initial polishing, there are several more finishing steps that include using other sword polishing stones like the wafer-thin hazuya and jizuya stones, and nugui powder to further enhance the appearance of the blade.

How to Traditionally Polish a Japanese Sword

Tanuki are raccoon-dogs and are native to Japan. Tanuki themselves are believed to prevent fire and theft, but as statues they do much more. Since the number eight is lucky in Buddhism, tanuki statues often have these eight lucky traits: a hat to protect against weather and trouble, large eyes to observe and make good decisions, a tail for balance and strength, a promissory note for trust, a ...
