THX products finder | THX Certified, THX AAA, THX Spatial Audio
THX told me that they do not certify speakers that are built in to a TV. If you've spent time listening to the tinny tones coming out of most TV speakers, you already know why. Advertisement

Set Up Your Home Theater Like a THX Master
The Companion 2 Series III is among the best computer speakers for most people. The 7.5 x 5.9 x 3.1-inch satellites don't take up much space on your desk, but they create a big, full sound.

The best computer speakers in 2020 | Tom's Guide
A 9.1-channel system adds front height speakers to take advantage of Dolby Pro Logic® Hz, which gets height information from the signal. The configurations noted in this guide are illustrative. We recommend any overhead speaker installation be performed by professional installers with experience installing overhead speakers.

Speaker Setup Guide - Dolby
How a Dolby Atmos setup differs from a surround sound setup. Typical surround sound setups have either 5.1 or 7.1 channels. A 5.1 system has left, right, and center speakers in front, with left and right surround speakers. A 7.1 system adds left and right rear surround speakers.

Dolby Atmos Setup Guides - Dolby
The THX-365C center speaker is a three-way design, with a separate midrange driver that lets it deliver consistently natural-sounding dialogue across a wide area. The system's rather plain design...

This THX ® Certified 2.1 speaker system delivers gaming grade audio and the ultimate sound experience for your movies and music. 400Watts of Peak/200Watts RMS power delivers crisp sound and thundering bass. Connect up to three compatible devices via the optical, 3.5mm or RCA inputs. Easily access all controls on the right satellite speaker.

Logitech Z625 THX Certified Computer Gaming Speaker System
You can set up a Dolby Atmos or DTS:X system with in-ceiling speakers or Dolby Atmos enabled upward-firing speakers. An Atmos system starts with a conventional 5.1 or 7.1 surround sound speaker setup. Then you add two or four speakers to project sound that rains down from above the listening position.

Speaker Placement for Home Theater Surround Sound
Developed by the THX company for LucasArt, the THX label is given to speakers, subwoofers and amplifiers which meet the THX requirements. In order to be THX compatible, a speaker should be able to deliver a sound level superior to 100 dB, ranging from bass to treble and with a very low distortion level.
