The good thing about the whole Land Cruiser range from Toyota, is that you will find a lot of the same parts across the various models, often also being interchangeable between models. The front solid straight axle on the 105 series, was the same one that was found on the Land Cruiser 78 series Troop Carrier, with the same control arms and so forth. This commonality between models, leads many ...

What is the Difference: Land Cruiser 100 vs. 105 ...

Standard safety equipment for the Toyota 100- and 105-Series LandCruiser included front outboard seatbelt pretensioners. The LandCruiser GXL and RV variants were further equipped with dual front airbags, ABS and load limiting front seatbelts. All models were fitted with four-piston front brake calipers.

Review: Toyota 100 Landcruiser (1998-07)

Land Cruiser advances its reputation with modern robust exterior styling. Every line serves a purpose. The bonnet is shaped to enhance visibility and headlamps and grille cooling openings are higher to maximise protection and wading depth.

1998 - 2002 Toyota LAND CRUISER FZJ105 OEM Parts | General ...

The laws of physics mean that a big, heavy car will always be less efficient than a smaller one, and as the Toyota Land Cruiser is about as big and heavy as cars get, it's no surprise running costs are pretty expensive. If you go for an automatic version (which the vast majority of buyers will), you'll be looking at CO2 emissions far higher than rivals like the Audi Q7 and Volvo XC90 (both ...

Switch & relay for Toyota Land Cruiser FZJ105R - Genuine parts

The Toyota Land Cruiser FZJ80 was the successor to the FJ80 in the 80 series gas-powered lineup. While body and features remained largely similar, the FZJ80 was powered by Toyota's new 4.5L, 24 valve, 1FZ-FE engine, capable of producing 190 to 240 horsepower depending on its configuration. Production of the FZJ80 ended in Japan in 1997. For that year, two special edition variants were ...
