A-Level Economics Papers - PMT

Economics is a social science concerned with the production, distribution, and consumption of goods and services.

Economics Definition: Overview, Types, and Economic Indicators

Definition of Economics: The Study of Resource Use . Economics is the study of choices. Though some believe that economics is driven purely by money or capital, the choice is much more expansive. If the study of economics is the study of how people choose to use their resources, analysts must also consider all of their possible resources, of which money is but one.
